

OzLINK® Custom

Integrate Groupon and UPS WorldShip®

OzLINK Custom for UPS can seamlessly integrate your Groupon orders with UPS WorldShip to streamline your end to end fulfillment process. The proven implementation standards of OzLINK Custom help create a solution that is easily supported, easily upgraded, and installed in half the time needed by most other custom solutions.

SEAMLESS INTEGRATION WITH UPS WORLDSHIP

- Pull order information from Groupon's Commerce Interface
- Update Groupon with status and tracking number
- Leverage all UPS services such as UPS SurePost, Mail Innovations, UPS LTL Freight and International Paperless Invoice
- No more re-typing or copy-and-paste in your warehouse

LEVERAGE BUSINESS RULES

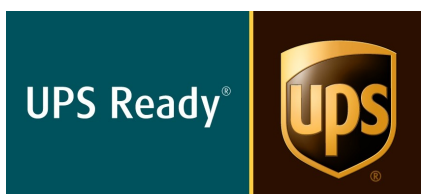

- Select UPS services and options automatically
- Automatically select insurance based on value
- Select UPS SurePost based on weight
- Incorporate Groupon data fields to automate business rules

AVAILABLE ADVANCED OPTIONS

- Print combination pack slips and UPS labels
- Batch processing
- Generate branded email notifications
- Produce Groupon compliant pack slips
- Leverage bar code scanning

WHAT DOES OZLINK DO BEYOND NATIVE Groupon

- Leverage all UPS services, including UPS SurePost
- Branded pack slips and combination pack slip with UPS label
- Use of peripherals, such as a scale and bar code scanner
- Automation of business rules

Oz Development joined the UPS Ready Program in 2004 and is now a UPS Ready Strategic Technology Provider. Since then, we have OzLINKed over 10,000 joint customers. All of our products are designed, built, and supported right here at Oz; therefore, if you call us, you'll be sure to get the right answer the first time!
